

INFORMATION TO CUSTOMERS

Genoa, September 23rd 2019

Subject: FOLLOWING OUR PREVIOUS INFORMATION ON 09/09/19 WITH SUBJECT TRANSIT DOCUMENT CLEARANCE – INSTRUCTIONS UPDATE BY CUSTOM OFFICE IN GENOA 1 – EXCEPTION FOR VEHICLES CONTAINING IMO GOODS TO BE LOADED AT SPINELLI SRL TERMINAL ABOARD CO.TU.NAV VESSELS

Dear Customers,

With our information sent last Monday 9th September, we informed you about the new applicable procedures regarding the clearance of T1 documents in the port of Genoa, pointing out that the cargo must actually be inside the terminal areas when the T1 document is submitted for its clearance.

Notwithstanding the instructions sent out, only in the case of IMO trailers departing from Spinelli Srl Terminal aboard CO.TU.NAV vessels, Custom Office in Genoa 1 has established that the clearance of T1 documents at the Custom counter has to be accompanied by the proof that the vehicle has entered port areas and the confirmation by Spinelli Srl Terminal about the actual loading of that IMO trailer aboard a CO.TU.NAV vessel.

In relation to such vehicles, therefore, the forwarder is compelled to the clearance of the T1 documents submitted upon presentation of San Benigno entry memorandum, on which Spinelli Srl Terminal will have put the required statements as established by the Custom.

Please note that such dispensation is applied only for IMO cargoes, as pointed out above, and only in relation to the custom procedure for the clearance/conclusion of the transit regime. Therefore, the access to the terminal of such cargoes will not be subject to any changes with regard to the already known operative procedures.

Best regards

SAIMARE S.p.A.
