

## Customs System Reorganization - TARIC Code Requirement

Dear Customers,

Following the entry into force of the European Union Customs Code in 2015, the Italian Customs and Monopolies Agency has initiated a process of progressive digitalization of customs operations, the next step of this process will be **the reorganization of the procedures for issuing transit declarations.**

Starting December 2024, and among the various new features, it will be obligatory to indicate the customs code (6-digit taric) for each item subject to the transit

For the correct preparation of the transit document, it will be indispensable to provide us with the following information for each item:

- Number of packages
- Weight
- 6-digit TARIC code
- Detailed description of the goods

We kindly ask you to take the necessary steps to provide us with this information in a complete and accurate manner. Errors or incomplete sending of the correct instructions could cause problems and delays both in the phase of establishing the transit document and in the phase of clearing it.

We remain at your disposal for any clarification, and if necessary, we can also organize a meeting to discuss these new procedures together

We thank you for your cooperation, please feel free to contact us for any question you may have

Best regards

Saimare S.p.A.
